

## **Physical Education Teacher Practitioner Programme (PETPP) 2026**

### **For Primary and Secondary Level**

(Application: Mar - Aug 2025)

The Physical Education Teacher Practitioner Programme (PETPP) addresses the short-term shortage of Qualified PE Teachers (QPETs) by equipping non-QPETs with the essential knowledge and skills to deliver safe, curriculum-aligned PE lessons. The programme is mandatory for all non-QPETs who intend to teach or will be deployed to teach PE at primary or secondary levels.

All modules will be conducted by PESTA and PSOEB at the Academy of Singapore Teachers (Malan Road). The programme includes two half-day school visits, during which participants will observe PE lessons across different learning areas at designated primary or secondary schools.

### **Programme Duration: January 2026 – April 2026**

- Full-Day Sessions: 2 sessions
- Half-Day Sessions: 10 sessions

### **Eligibility Criteria**

- Non-PE trained Education Officers (EOs) who intend to teach or will be deployed to teach PE from Semester 2, 2026
- Must demonstrate competency in conducting PE lessons in English
- Must obtain medical clearance

All applications require endorsement from the School Leader prior to submission. PESTA will arrange medical examinations for applicants once their applications have been processed. Successful applicants will receive confirmation from PESTA by end-November following medical clearance. Please refer to the attached PETPP outline for specific details regarding primary and secondary levels.
